

RE-PROGRAMMING YOUR REPAIRED

3M/PAR G5

HEADSET

BASE STATION:

- 1 Press the **MODE** key on base station and enter **1-2-3-4**. Press the **MODE** key again. **USER MODE, ID=1** should appear on display screen.
- 2 For **3M/PAR G5 (BLACK BASE)**: Press **MODE** one time. Press **ENTER** to select system menu. For **3M XT-1 (GRAY BASE)**: Press **MODE** three times. The system menu will appear on screen.
- 3 Select **4 - REGISTRATION**.
- 4 Select **ADD NEW HEADSET**, then press **ENTER**.

HEADSET:

- 5 Insert a fully charged battery.
- 6 Power on the headset and wait for the green light to stop blinking.

BASE STATION:

- 7 Wait for the display to say "**headset XX has been registered.**"
- 8 Press **MODE** three times, and the system will go back to the home screen.
